

Introduction of myself

My name is Irene and I am writing to tell you a little bit about myself. I was born in Arrasate-Mondragon a city located in the Basque Country, in the north of Spain. My parents chose my name because it represents my granddad's sister and also peace. I live in a pretty small town with my parents and my younger brother, Inigo, who is 14.

I love to play the saxophone. I started when I was 9 years old in the community music school. I have played in two different bands and now I am a member of the Galt band. My favorite sport is skiing and this spring I am going to start playing tennis. I like physics and chemistry because we are always doing projects and experiments in groups.

I love the food here, poutine especially but I also miss the Spanish food such as the potato omelete.

I love Canada and I am really enjoying Alexander Galt because people are very nice and friendly and I made lots of friends. Right now I am living the most amazing experience of my life.

Thank you

Irene
