

## Introduction of myself

My name is Tegusi. In Mongolian it means "Great". I come from Inner Mongolia, a province of China and my hometown name is Huhhot. I have a sister and she is studying in Scotland right now.

I like to play basketball; that's my favourite sport. I tried to play on the team. I was not success but I still keep practising with them and now I have become the manager for the basketball team. Basketball practise is best time of my school day. I'm practising with a great team.

My favourite subjects are physics and gym, but I also like other classes except history and French. French is too difficult for me, as it's a new language and a big challenge. My favourite food in here in Canada is spaghetti; that's very, very delicious.

Thank you,

*Tegusi*
