RRHS (24,44%)

St. Francis (24.44%)

Activities at Multiple Schools vs Single School

Single School (63.33%)

Goal #1

Children entering ETSB schools are Kindergarten-ready

OBJECTIVE: To ensure that families have the resources to support their child's development

A variety of virtual workshops were offered throughout the year to parents of children 0 - 5 years old, supporting areas of development such as language and communication skills, social skills and healthy sleep habits.

Number of Early Childhood programs or activities:

Number of Participants in Early Childhood Programs:

213

Goal #2

Students are more engaged in their learning

OBJECTIVE: To provide students with tools to support their mental health and emotional well-being in a holistic perspective

CLC-supported activities took place both as in-class projects as well as whole-school initiatives. Certain projects were also supported in each school specifically to respond to their particular needs.

Goal #3

English-speaking community members have improved access to Health & Social services in English

OBJECTIVE: To support local service providers in adapting their services to meet the real needs of the ESC.

We continued our roles as facilitators for organizations to reach our students, their families and the English-speaking community by participating in various community tables and committees, administering a community microgrant program, and offering direct support when solicited.
