

Pipers win the 48th annual Galt badminton tournament

Sherbrooke Record · 1 May 2018 · 7 · Submitted by Robert Fisk Athletic Director Alexander Galt

The Alexander Galt Badminton Team won the 48th edition of its Annual Badminton Tournament by a narrow margin of 7 points over Centennial Regional High School this past Saturday.

The Tournament featured eight schools (Centennial, Mitchell Montcalm, Richmond, Stanstead College, Masseyvanier, Triolet and Bishop's College School), 209 players that played 474 matches to 21 points. Blue and gold littered the courts during the medal rounds with 34 Pipers taking home medals.

Special thank you to Mr. Walker and his staff for running another well-organized tournament.

Below is a list of the winners in each category. Bantam Boys Singles:

Gold: Youssef Amaani (Montcalm) , Silver: Simon Contre (Galt), Bronze: Dawson Coates (Galt)

Bantam Girls Singles:gold:

Yani Chan (Centennial), Silver: Sarah Haseltine (Galt), Bronze: Mika Sauvageau(centennial)

Bantam Mixed:

Gold: Dominic Bibeau & Sarah Paquette (Galt), Silver: Lucas Dunn & Ella Dunn (Galt), Bronze: Emily Ng Youn Chen & Amaan Abbasi (Centennial)

Bantam Boys Doubles:

Gold: Cole Bennett & Josh Picard (Galt), Silver: Carter Mooney & Rowan Gilpin (Galt), Bronze: Matthias Marcoux & Caden Dulude (Galt)

Bantam Girls Doubles:gold:

Emma Bertand & Marilou Duranleau (Mitchell Montcalm), Silver: Mary Evans & Alicia Hubert (Richmond), Bronze: Emma Macleod & Lily Mclean (Galt)

Gold: Scott Loach (Galt), Silver: Affan Thameen (Centennial), Bronze: Xavier Fisk (Galt)

Gold: Madison Fowler (Richmond), Silver: Eryn Costello (Galt), Bronze: Promise Rocheleau (Richmond)

Gold: Savannah Crack & Maxime Croteau (Richmond), Silver: Erica Chan & Zackary Murphy (Centennial), Bronze: Arizo Janali & Olivier Brault (Mitchell Montcalm)

Gold: Etienne Dupont & Mathias Vigneault (Triolet), Silver: Nick Bradley & Dave St. Laurent

LOCAL NEWS

The Eastern Townships School Board, which operates its own bus fleet, will not be affected by a strike, with the possible exception of some areas in its western sector near Granby.

School bus drivers schedule May 15 strike day

Record Staff

Thirty-one school boards will be hit by a strike by bus drivers for a day on May 15, and a second day scheduled for the week of May 28.

Some 44 unions belonging to the Federation of Public Service Employees, affiliated to the CSN, have received mandates for six days of strike, but so far only the initial date has been scheduled.

In all, the federation has 63 member unions, but 19 voted against the proposed strike mandate or did not vote, Stephen P. Gauley, president of the school bus sector, said at a press confer-

ence Tuesday. "The other 19 will continue their service as usual."

Some 2,170 union members out of 3,000 will be affected by the strike.

Union leaders would not say which school boards it would hit for the time being; adding that they notice would be given to affected parents when the time comes.

Other unions affiliated with the CSN, the FTQ, and Unifor have succeeded in renewing their contracts with their respective private carriers. Some of these held strike days, others did not.

In all cases, compensation is at the heart of the dispute but wages vary from

one carrier to another. School bus drivers earn between \$20,000 and \$25,000 annually, and some earn less than \$20,000.

School bus transportation is usually provided by private carriers, who enter into contracts with school boards, who in turn receive subsidies from the Ministry of Education to provide the service. Unions say the money allocated is not enough to improve the salaries of drivers enough.

Carrier contracts include a clause stating that "in the event of a strike or lockout of seven or more consecutive days, the school board, without preju-

dice to any other remedy, may terminate the contract for the relevant year and subsequent years, if any, for all or part of the contracted vehicles."

The contract also provides that "in the case of short-term work stoppages, if the transport company is in its second notice of default in the same year, the school board may terminate the contract".

The Eastern Townships School Board, which operates its own bus fleet, will not be affected by a strike, with the possible exception of some areas in its western sector near Granby.

CFUW public speaking contest

26 years of students speaking their minds

Sherbrooke Record · 4 May 2018 · 1 · By Matthew McCully

This year 15 students from local secondary schools met at Amédéebeaudoin Community Centre in Lennoxville to participate in the 26th annual Canadian Federation of University Women (CFUW) public speaking competition, held Wednesday afternoon.

The participating schools included Stanstead College (SC), Bishop's College School (BCS), Richmond Regional (RRHS), Massey-vanier (MVHS) and Alexander Galt Regional High School (AGRHS).

This year's winners in the junior division (Sec. 1, 2 and 3) were Aidan Feddema (BCS) in first place with his speech "Is Social Media Worth It?" David Kolten Crack (RRHS) in second place with his speech "Why We Should Eat Whole dairy Products", and honourable mention went to MVHS student Solomon Jung for his speech "The Future of Learning."

In the senior category (Sec.4 and 5), top honours went to Cala Tesolin (BCS) for her speech, "Beauty is Not Beautiful". Second place went to Alexis Bernier (SC) with his speech "What is Success?" Honourable mention went to Kelly Frendo (BCS) for her speech "History Should be in Our Future."

The winners in each category were awarded a \$100 donation for their school's library.

In line with the CFUW'S mandate promoting literacy and education, the event was an illuminating experience for audience members as well as the young orators.

The subjects chosen by the students serve as a barometer for the concerns of local teens today, and in many cases, are directly in line with issues debated in national, and even international political arenas.

Among the subjects were two speeches about social, or as one student put it, 'Unsocial' media.

"Being famous on Instagram is like being rich in Monopoly," explained one student.

"Why do I feel compelled to send out (Snapchat) streaks every day," another said, explaining that digital platforms use tactics similar to casinos and lotteries to develop addictions.

"We can be hyper-connected and extremely lonely at the same time," he said, adding "It has us by a string, and it's up to us to cut it."

One student made a compelling argument for whole dairy products.

"Would you seriously want to put edible plastic on your toast?" he asked, referring to the flavour and health benefits of butter compared to margarine. Consuming whole dairy, according to the young speaker, is not only healthier, but helps support Canadian jobs, one eighth of which are in agriculture.

"If you put butter and margarine on a table, not even the flies will go to the margarine," he said.

One of the speeches laid out the pros and cons related to the legalization of marijuana. The points raised dealt not only with the economic aspects, but also the societal impacts and the potential for medical research.

"Stereotypes stink," was the opening of one student's speech. "It's a bad habit that we help keep alive," she went on, challenging the audience to suspend judgment and get to know people rather than rely on a pre-conceived notion of what a person is like.

One student spoke about the lack of attention and funding paid to women in sports.

"They are sidelined, underfunded and ignored," she said.

"When Marie-Philip Poulin goes to get the puck in the corner, she's going hard," the student said, explaining that women work just as hard as men in sports, and deserve to be funded to the same degree.

"Young girls need better role models," she added, pointing out that 88 per cent of young girls do not get the recommended amount of daily physical activity.

"Everyone should work on themselves constantly," another student said. In that context, she suggested that if students had the opportunity to grade teachers, it would attract the best of the best to the profession.

"Who better to judge; we spend the most time with them," she said, explaining that testing teachers regularly the way students are tested would create lifelong learners.

While there were many hard-hitting topics addressed during the competition, there were also a few students thinking outside the box.

One student came up with a unique way to revolutionize learning. Capitalizing on the thousands of nerve receptors on the tongue, the student came up with the idea of having Braille pressed onto food, so that everything eaten could be a new source of knowledge, eaten and remembered. The inventive concept provided a guilt-free loophole for junk food addicts. "I'm not eating junk, I'm eating knowledge," he suggested.

Racial inequality was the subject of one speech. The student shared a personal account of being followed around a store while shopping for a coat with her mother.

"I have to make sure that you don't steal anything; you people do that a lot," the clerk told her and her mother.

"Never let the limits that society places on you hold you down," she said. "No legend ever had an easy journey, but they kept going."

One student drew attention to the 119 per cent increase in health issues related to eating disorders in young people in the last decade, undoubtedly the result of society's outrageous beauty standards. "If that's beauty, then beauty hurts," she said.

Wondering whether ideas of beauty were a societal issue reflected in the media, or if media was presenting impossible standards, she said people should stop listening. "Beauty is everything but beautiful," she said.

Distracted driving was on the mind of one student, who reminded the audience that the penalty comes with a fine of up to \$100 and four demerit points.

"It's a heavy fine for a heavy crime," she said.

With the average smart phone check taking 4 to 6 seconds, the student said that travelling at 90km/h in a car, that would mean driving the equivalent of a football field blindfolded.

She further illustrated her point about distracted driving by sharing the stories of people who have been involved in accidents because of distracted drivers.

"Life is like a maze. The right path can be blurred by many obstacles," one student said, offering some tools to be in successful in life.

He pointed out that most people are their own worst enemies.

His three tips to be successful in life were to not compare oneself to others, to not fear failure, and to always be confident. Quoting Elon Musk, he said "When something is important enough, you do it even if the odds are not in your favor."

One student offered a critique of the Quebec public school system, specifically the history curriculum.

Rather than repeating the same Quebec-centric lessons year after year, she suggested a wider world view be added to the lesson plan.

She shared some pivotal moments in history that happened outside of Quebec, including the interesting story of the seemingly un-killable Russian mystic Grigory Rasputin.

"If that had happened to a Quebec premier instead of a Russian ruler, we would have heard about it," she said.

One student talked about her reliance on a 'magic eraser' to make decisions in her life.

With a yes written on one side and no on the other, she most recently let the eraser decide whether or not she should go to Cegep next year.

"I think that fear is a lot better than boredom," she said, explaining that relying on the impulsive decisions of the eraser moves her out of her comfort zone.

"I'm not insane," she said, adding that she is in no way obliged to do as the eraser says. Her point was that forcing a decision was a good tool to help her realize how she really feels about something.

One student broke down the psychology behind magical thinking. She used the example of dreaming about a friend, and then receiving a text from the next day, as though the dream made the text happen.

The notion of powerful thoughts extends to tangible objects, the student pointed out. "No one would be willing to wear a coat that belonged to a serial killer," she said, explaining the notion of magical contagion.

"Bad vibes are stronger than washing machines," she said.

JEUX DE SHERBROOKE

1700 jeunes s'initient au sport

JASMINE RONDEAU

jasmine.rondeau@latribune.qc.ca

Sherbrooke — Plus de 1700 élèves de sixième année participent à la deuxième édition des Jeux de Sherbrooke mercredi et jeudi. « 1, 2, 3, on bouge! », voilà le slogan qui apparaît dans les cinq plateaux où se déroule cette initiative de la division des sports de la Ville de Sherbrooke qui vise à sensibiliser les jeunes à un mode de vie actif. L'activité leur permet d'explorer trois disciplines sportives parmi un large éventail proposé, où ils sont accompagnés de leurs camarades de classe et de leur professeur.

Certains élèves sont initiés pour la première fois à des disciplines. Le jeune Anthony Boissé confie par exemple n'avoir jamais fait de karaté auparavant; ce sera pour lui une nouvelle expérience. Ses amis ajoutent qu'au-delà du « congé de travail », c'est l'accès à du matériel de qualité qui leur plaît particulièrement en cette journée. Le Centre sportif de l'Université de Sherbrooke, où ils passent la journée, leur permet de terminer leur saut en longueur dans un bac de sable à même le gymnase alors qu'ils n'ont que des tapis mis à leur disposition à leur école.

Un des responsables de l'événement, Daniel Quirion de la division des sports de la Ville de Sherbrooke, confirme que la participation a augmenté cette année. L'édition 2017 avait eu beaucoup de succès, ce qui a permis à d'autres écoles de s'intéresser au projet. Des écoles privées et des classes anglophones se

sont notamment ajoutées au lot.

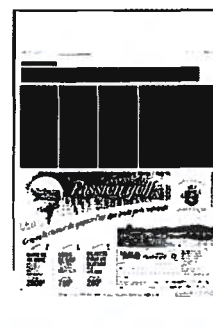

BÉNÉVOLES PRÉSENTS

Une grande collaboration entre plusieurs acteurs est nécessaire pour la réussite de Jeux de Sherbrooke. Une trentaine de bénévoles prêtent main-forte aux responsables pour cet événement. « Encore une fois cette année ça a répondu présent, on est complets et on a tout ce qu'il faut pour offrir de très belles journées à la clientèle de jeunes de sixième année », affirme M. Quirion. L'organisation demande également aux professeurs d'animer les séances sportives pour leurs classes respectives.

Parmi les cinq plateaux où sont offertes les activités, on compte aussi le Centre de foires, l'Université Bishop, le Cégep de Sherbrooke et le centre multifonctionnel Roland-Dussaut. Des périodes d'une heure de danse hip-hop, de tir à l'arc, de natation, de sports de rame, d'escalade, de boxe, de cheerleading et d'haltérophilie font partie des 35 options proposées. Offerte à la Commission scolaire de la Région-de-Sherbrooke, à la Commission scolaire Eastern Township ainsi qu'à des écoles primaires privées, l'activité permet à la Ville de souligner la Journée nationale du sport et de l'activité physique qui se tient jeudi 3.

Les élèves de 6^e année de la région de Sherbrooke ont droit à deux journées d'initiation sportive. — PHOTO SPECTRE MÉDIA, RENÉ MARQUIS

Galt students visit the Hill

Meagan McKinven
Special Collaboration

Alexander Galt High School English teacher Meagan McKinven and History teacher Drew Pollock brought their Cycle 2 students to Ottawa last week to conclude their Model Parliament activity. "We travelled to Ottawa on April 23rd to the 24th, with the primary focus being the culminating task of students viewing question period so that they could see live

Alexander Galt students are seen here with their English teacher **Meagan McKinven** (standing in front at right in pink sweater) and History teacher **Drew Pollock** (at back and to the left) at Parliament Hill last week.

what they had just worked on over the last few weeks. Many of them were taken by the experience and were even taken aback by the theatre that is question period in Parliament. While in Ottawa we were also able to meet with a few MPs who were gracious enough to give us a few minutes of their busy schedule while we were visiting Parliament Hill," explained Ms. McKinven. The MPs who met with the students included the Minister of International Development and La Francophonie, and the Compton-Stanstead MP, the Honourable Marie-Claude Bibeau, the NDP's Pierre-Luc Dusseault, the Sherbrooke MP, St. John's East Liberal MP Nick Whalen, and NDP MP of Port Moody-Coquitlam, Fin Donnelly. "This helped to bring perspective to what MPs do, how their careers ended up where they are, but it also humanized these 'politicians' who the students have been studying," added Ms. McKinven.

While in Ottawa the students also visited the National Art Gallery, the Museum of History, and the Canadian War Museum, which also helped to augment their learning from this year's History and English classes.

Wiseman-Beese and Shearer Named Piper Athletes Of The Month

**Bob Fisk,
Special collaboration
Lennoxville**

Naomi Wiseman-Beese and Tyler Shearer have been named the Piper Athletes of the month for April at Alexander Galt High School.

Wiseman-Beese is a member of the Senior Girls Badminton team and the top female singles girl in the school. She won the gold medal at the 48th annual Galt Badminton Tournament last weekend. The 16 year old also won all of her ETIAC matches the week before. She is one of the hardest workers in practices and takes advantage of every lunch hour to improve her game. The grade 11 student also has an unmatched work ethic in the classroom where she sits on the Principal's List.

Tyler Shearer is a member of the Senior Boys Badminton team that won the gold medal in the Galt badminton tournament. The grade 10 student earned his medal by training hard in the badminton component of the sports concentration program. The 15 year old went undefeated throughout the season and could not be beat because of his quickness soft hands and strength. He will be back next year to defend his title as a graduating student.

players that played 474 matches to 21 points. Blue and gold littered the courts during the medal rounds with 34 Pipers taking home medals.

Special thank you to Mr. Walker and his staff for running another well-organized tournament. Below is a list of the winners in each category.

Bantam Boys Singles:

Gold: Youssef Amaani (Montcalm)
Silver: Simon Contre (Galt)
Bronze: Dawson Coates (Galt)

Bantam Girls Singles:

Gold: Yani Chan (Centennial)
Silver: Sarah Haseltine (Galt)
Bronze: Mika Sauvageau (Centennial)

Bantam Mixed:

Gold: Dominic Bibeau & Sarah Paquette (Galt)
Silver: Lucas Dunn & Ella Dunn (Galt)
Bronze: Emily Ng Youn Chen & Amaan Abbasi (Centennial)

Bantam Boys Doubles:

Gold: Cole Bennett & Josh Picard (Galt)
Silver: Carter Mooney & Rowan Gilpin (Galt)
Bronze: Matthias Marcoux & Caden Dulude (Galt)

Bantam Girls Doubles:

Gold: Emma Bertand & Marilou Duranleau (Mitchell Montcalm)
Silver: Mary Evans & Alicia Hubert (Richmond)
Bronze: Emma MacLeod & Lily McLean (Galt)

Jr. Boys Singles:

Gold: Scott Loach (Galt)
Silver: Affan Thameen (Centennial)
Bronze: Xavier Fisk (Galt)

Jr. Girls Singles:

Gold: Madison Fowler (Richmond)
Silver: Eryn Costello (Galt)
Bronze: Promise Rocheleau (Richmond)

Jr. Mixed:

Gold: Savannah Crack & Maxime Croteau (Richmond)
Silver: Erica Chan & Zackary Murphy (Centennial)
Bronze: Arizo Janali & Olivier Brault (Mitchell Montcalm)

Jr. Boys Doubles:

Gold: Etienne Dupont & Mathias Vigneault (Triolet)
Silver: Nick Bradley & Dave St. Laurent (Galt)
Bronze: Louis Charles Trepanier & Logan Robidas (Galt)

Jr. Girls Doubles:

Gold: Beatrice Gagnon & Juliette Roy (Mitchell Montcalm)
Silver: Shu Shu & Annie Tang (Stanstead)
Bronze: Lea Laliberte & Emily Evans (Richmond)

Sr. Boys Singles:

Gold: Tyler Shearer (Galt)
Silver: Nicolas Matthew (Centennial)
Bronze: Py Cheung (Stanstead)

Sr. Girls Singles:

Gold: Noemie Wiseman Beese (Galt)
Silver: Cleni Karellopoulos (Centennial)
Bronze: Marie Philippe Lampron (Montcalm)

Sr. Mixed:

Gold: Isaiah Wing & Lindsay Chapdelaine (Galt)

Silver: Marley McLellan & Alexandre Fortunado (Centennial)

Bronze: Remi Gauthier-Lambert & Isabelle Handfield (Mitchell Montcalm)

Sr. Boys Doubles:

Gold: Jay & Mooris (Galt)
Silver: Corey Fortin & Gabriel Duval (Mitchell Montcalm)
Bronze: Ryan Naylor & Nathan Clowery (Galt)

Sr. Girls Doubles:

Gold: Anycia Bilodeau & Brtiney Aulis Labrie (Galt)
Silver: Lydia Davidson & Carlie Mosher (Galt)
Bronze: Isabelle Nguyen & Magdaleine Karellopoulos (Centennial)

Team Points:

3. Mitchell Montcalm 78

Sutton celebrates young talent

Sherbrooke Record · 2 May 2018

For the sixth edition of the Sutton School Talent Show, 90 children between the ages of 5 and 12 will take the stage this Friday, May 4 to perform 25 different acts.

Started by a Sutton teacher in 2011, the annual talent show has grown in popularity every year.

The show is the result of months of hard work by the young students, all of whom perform with energy and passion.

Coaches and teachers assisted the children during recess and after school rehearsals. By generously sharing their skills in singing, dancing and theater, they have helped the young protégés develop their skills and build confidence.

Directed and produced by Espace Sutton, a non-profit organization dedicated to the promotion of the performing arts, the Sutton Talent Show is organized in close collaboration with the Sutton School. About fifty volunteers ensure the show's success and bring the community together in celebration of young talent.

The show will take place Friday, May 4, 2018 at 6:30 p.m. at Sutton Elementary School - 19 Highland Street, Sutton.

Tickets cost \$8, but admission is free for all children under the age of 12 thanks the Boulanger-bédard Foundation's contribution.

Tickets can be purchased at the Cafeteria in Sutton or at the door the evening of the event.

Letters

DEAR EDITOR,

Marcus Tabachnick's article School Board Elections [The Record April 18th] is more noteworthy for omissions rather than content. Failing to mention any specific issue, we are fed a diet of meaningless platitudes. His suggestions is that we need 'new people, new attitudes, fresh ideas, clear focus'; simplistic slogans unlikely to inspire people to head to the polls. Instead of promoting vague 'new' ideas why not propose that we rally to an 'old' idea that Tabachnick appears to ignore? This 'old' idea was promulgated by the Chambers Commission in 1991. It recommended 'That access to education in English be widened to include any child who was being educated in English, or, who had a parent from an English speaking part of the world'; a recommendation which, incidentally, closely mirrors section 23 of the Charter. It would, if implemented, provide a little lifeblood into a school enrollment that has been hemorrhaging for decades.

Unfortunately, under the Charter [Sect 59] English speaking citizens in Quebec have yet to enjoy equal educa-

tional rights as their French speaking counterparts in other provinces. By advocating for the Chambers recommendation, it would provide the community with a rallying point and simultaneously promote a Canada wide linguistic parity. For too many years, Tabachnick and fellow commissioners have been focused on the constitutional rights of school boards. This preoccupation obscures the fight for individual rights; that of a parent to choose what is best for their child. On any scale of rights, those of an individual are paramount, far eclipsing those of organizations. Parents are far more concerned about their child's classroom than the commissioners' boardroom.

Let us not forget, that school boards only exist because of schools, which exist because of students, not the reverse. Schools are the vital element to maintain a vibrant community. The English boards should focus their time, money and legal efforts to fight for increased access to English schools, and in doing so, benefit parents, students, schools, and the boards themselves.

KA 'WE' students doubled their expectations

Walking for clean water

Sherbrooke Record · 1 May 2018 · 1 · By Ann Davidson

Pride and excitement overpowered the Knowlton Academy (KA) student parliamentarians last Friday afternoon when their entire school community took a symbolic walk together after raising over \$3,300 that will serve to pay for clean water for 144 girls living in Africa. The students had doubled their own goal during a one-day, nationwide campaign to raise \$50,000.

They are engaged, inspired, enthusiastic and determined to make a difference for others. That is what "WE" Schools are all about. Friday's light spit of rain could not dampen students' spirits when all 254 of them along with the entire staff of over 30 took the af-

ternoon to take a walk around a large block twice-over signifying their determination to make life for girls living in Africa better. Each older student was assigned a younger one to share and help them on their way. Some opted to simulate the trek by carrying backpacks weighted with the equivalent of a bucket of water on their heads. Others carried them on their shoulders.

It was the trip to Montreal to WE Day that inspired KA'S student parliament to organize the WE walk for clean water drive. "We saw a video that showed seven girls carrying water jugs on their heads. They spend their days toiling over household chores," explained the co-prime ministers of KA Student Parliament Katrina Burcombe and Ben Mcauley. They learned that when communities have access to clean water, girls can attend school, parents can run sustainable farms, and families can break the cycle of poverty. Families can also avoid contracting illnesses that are waterborne. They and their fellow parliamentarians spoke about the inequity that young girls and women live with because of the time lost from walking while fetching wa-

ter back to their villages even though it is not necessarily clean. The students were impacted by how they had to toil with so many chores while the boys were able to go to school. "Guys' scores in school are always higher because they get to school while the girls are left to do all the household chores," said Mcauley.

Two weeks ago they started the campaign, pitching that \$25 gives clean water for life to one girl living in Africa. They were bowled over with the results. "We are all very proud of that," added the effervescent Burcombe. All nine members declared that they would do it again. Bianca Beaulne mentioned that those who are moving on to Masseyvanier are eager to start a WE Project there because they know what good they can do for their school, community, and the world. They have learned that by doing it together, they can make a difference.

Knowlton Academy is the only school in the Eastern Township Regional School Board that is a certified "WE School" within the "WE Movement."

Principal Renalee Gore says that these projects are all about perseverance. The students learn so much about each other, working together for a common goal for the good of their communities and the world, sticking to the project until completion. WE (at KA) have done a lot of things this year from WE scare hunger, collecting food for the local food bank as well as preparing Christmas baskets, to walking for water. The school still have one more project that will be to raise funds to support the three young girls in Afghanistan so that they can go to school. "Every student has to do a job at home in order to raise the money for this. Our students even want to have a project to ban plastic straws in Knowlton," Gore said.

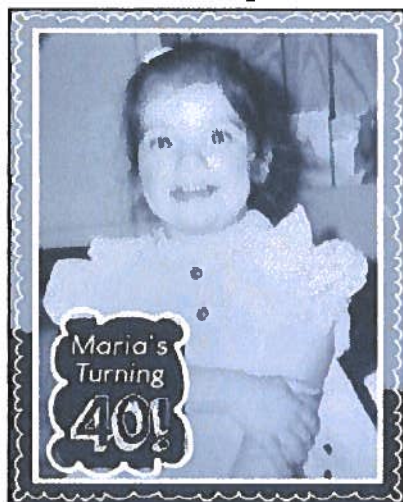

The WE Movement asserts that when "we come together we can create an even better world." The organization helps to get people involved whether at home, in school, or at work so that positive change in their communities and around the world can be affected.

As for the money that was raised for clean water by the KA WE community, the director of WE Montreal will be coming to Knowlton Academy on June 4 for a special presentation of the cheque.

Robot parade by Heroes' students

Sherbrooke Record · 1 May 2018 · 11 · By Louise Smith

Usually every second year, but sometimes two years in a row when the students really want it to happen, students build robots from recycled materials in grades 3 and 4. This is done under the leadership of the French teacher, Melanie Deguire.

She says that it is a wonderful way to get the students and parents engaged in a project together while working on a speech in a second language to be able to explain what “talents” their robots possess.

Judging by the happy faces of the creators and the visitors to the exhibit, it was a total success.
